Professional Summary

Web Developer specializing in React, Next.js, Node.js, and modern databases. Experienced in building fast, scalable web apps with pixel-perfect UI and clean backend architecture.

Core Competencies & Skills

- Frontend Development:** React.js, Next.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Redux Toolkit, Context API.
- Backend & Databases:** Node.js, Express.js, RESTful APIs, MongoDB, Supabase, MySQL, JWT Authentication.
- Tools & Practices:** Git, GitHub, Postman, Vite, Vercel, Responsive Web Design, Web Vitals Optimization, Cross-Functional UI/UX Collaboration.

Professional Experience

Web Developer & UI/UX Designer | Freelance

August 2024 – Present

- Built and deployed responsive web apps and landing pages for international clients using React and Tailwind CSS.
- Converted Figma designs into modular, performant code while maintaining a 100% client satisfaction rate.
- Integrated REST APIs and third-party services to streamline user onboarding and lead capture.

Web Developer | TeraOnic Software Solutions

Mar 2025 – Apr 2026

- Developed full-stack web applications and internal tools using React, Node.js, Express, and MongoDB.
- Designed database schemas, built secure JWT-authenticated REST APIs, and improved query response times.
- Managed automated deployments and CI/CD pipelines across cloud hosting platforms.

Frontend Developer & Designer | illume Estate

June 2024 – July 2024

- Engineered property discovery pages, interactive filters, and listing modules in React, cutting load times by 25%.
- Implemented multi-step buyer inquiry workflows and ensured strict cross-device responsiveness.
- Collaborated closely with stakeholders to translate user requirements into responsive, production-ready frontend components.

Key Projects

UniGo – Smart Campus Transit Solution

React Native, Express.js, Node.js, MongoDB

- Built a campus transit platform featuring live bus tracking, QR-code boarding, AI seat availability prediction, and AI Route Redirection.
- Conducted commuter journey mapping and created interactive mobile prototypes to eliminate transit bottlenecks.

Closet Canvas – Smart Wardrobe & Outfit Planner

Next.js, Tailwind CSS, Supabase

- Developed an interactive wardrobe planning platform with auth, custom capsules, and Supabase cloud storage.
- Created drag-and-drop outfit canvas components optimized for smooth client-side state management.

Shark E-Commerce Solutions– Amazon Services

React, Tailwind CSS

- Developed a responsive agency website showcasing Amazon growth services (PPC, Listing Optimization, SEO, Creative Designs).

Education & Honors

Bachelor of Science in Software Engineering | Air University

Graduated: June 2026

- Web Engineering, Software Architecture, Database Systems, Data Structures.

National Skill Competency Test (HEC)

- Ranked in the top 3.3% nationwide

(96.7 Percentile | Score: 69/100)
